

Economic Overview And Outlook: Kansas

JOBS

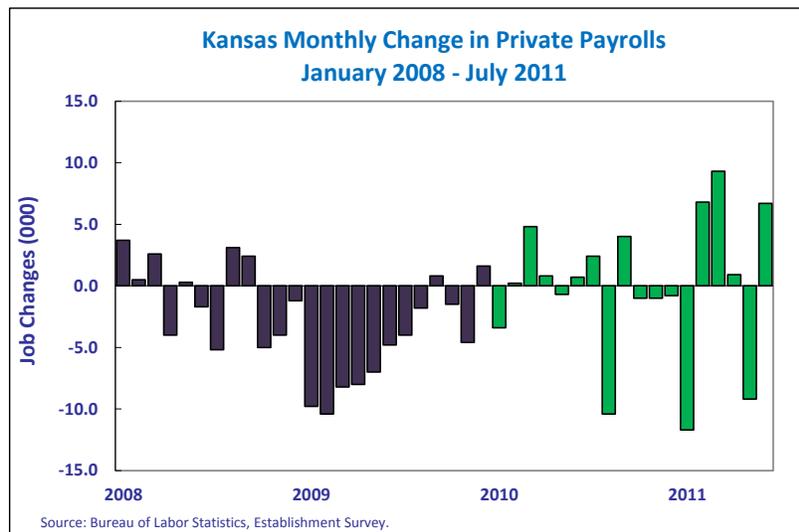

- Including July, the private sector has gained jobs nationwide for 17 consecutive months.
- In Kansas, private sector employment fell by 6.4 percent from January 2008 to February 2010. Since February 2010, private sector employment has grown by 0.4 percent.
- In Kansas, employees in the mining, information services, and manufacturing sectors faced the largest job losses (as a percent of employment within an industry) over the recession. Since the beginning of 2010, the following sectors in Kansas have experienced the greatest employment increases: mining; education and health services; and construction.*
- As the economy recovers from the Great Recession, service-providing industries are projected to add the most jobs between 2008 and 2018, with the largest gains in professional and business services, education, health care and social assistance, and State and local government. Within the goods-producing sector of the economy, only the construction industry is projected to add jobs above its 2008 level.

EMPLOYMENT

- The unemployment rate in Kansas was 6.5 percent in July 2011, up 2.5 percentage points from December 2007, but down from its most recent peak of 7.6 percent in August 2009.
- 98,000 Kansas residents were counted among the unemployed in Kansas during July 2011.

EARNINGS

- Between the start of the recession in the 4th quarter of 2007 and the 3rd quarter of 2009, inflation-adjusted total personal income in the United States declined 2.2 percent. Most recently, in the 1st quarter of 2011, total personal income is 1.1 percent above its 4th quarter of 2007 level.

- Real per capita personal income (in 2005 \$) in Kansas was \$36,454.60 in the 1st quarter of 2011, up from \$35,833.60 in the 1st quarter of 2009.

HOUSING

- National home prices, including distressed sales, saw a decrease of 6.8 percent in June 2011 from June 2010 compared to a 6.7 percent decrease in May. In Kansas, home prices saw a decrease of 2.7 percent in June 2011 from June 2010 following May's year over year decrease of 4.7 percent.
- The median price of single-family homes in Kansas was \$118,687 in the second quarter of 2010, compared to \$180,176 nationwide.
- As of the 1st quarter of 2011, 2.5 percent of all mortgages, including 8.8 percent of subprime mortgages, were in foreclosure in Kansas.
- Housing starts in Kansas totaled 4,660 units (seasonally adjusted annual rate) in June 2011, an increase of 9.1 percent from May.
- Within the Midwest census region, which includes Kansas, sales of new single-family homes totaled 46,000 units in June 2011, an increase of 9.5 percent from May. Sales of existing single-family homes increased 1.1 percent to 960,000 units (at seasonally adjusted annual rates) from June to July 2011.

How Does Kansas Compare To Other States?

Workers across the country were hard hit during the Great Recession. Although labor markets in many states still remains below pre-recession levels. The chart below allows you to compare Kansas to other states using two metrics.

The current unemployment rate (measured along the horizontal axis) serves as a gauge of current labor market conditions faced by residents, while the proportion of jobs lost within Kansas since the start of the recession (shown along the vertical axis) measures the toll the recession took on the job supply in Kansas.

States falling in the upper right quadrant have lost a disproportionate share of jobs, relative to the total United States, and have unemployment rates higher than the national unemployment rate. States falling in the lower left quadrant have unemployment rates job losses (or even gains) lower than the national average.

STATE QUICK FACTS

		Kansas	United States
Unemployment Rates	July 2008	4.6%	5.8%
	July 2009	7.6%	9.5%
	July 2010	7.0%	9.5%
	July 2011	6.5%	9.1%
