

Families in Nevada Have Had to Spend \$3,900+ More Under Trump

As of August 2026, the average household in Nevada has had to **pay an additional \$3,900+ for goods and services** due to rising costs under President Trump. Despite his repeated [pledges](#) on the campaign trail that his administration would “end inflation” and bring down costs for families, Trump and Republicans in Congress have instead caused costs to continue to rise significantly, including through Trump’s reckless tariffs and war in Iran. Below are calculations from the Joint Economic Committee – Minority and other statistics on higher costs that families in Nevada face for everyday essentials:

Housing Costs

- Nevada families have had to spend an additional **\$491 on housing costs** such as rent and mortgage payments since President Trump took office.

Grocery Costs

- Americans paid an additional **\$310 for groceries** in President Trump’s first year than in 2024, and grocery prices are now **more than 4 percent higher** than when Trump took office.
- Beef and coffee prices are hitting Americans especially hard. Since the President took office, the average price of ground beef has risen almost every month to a record high of more than **\$7 per pound**. Coffee prices also spiked and are now more than **\$9 per pound**.

Energy Costs

- Gas prices have soared since the start of Trump’s Iran War. In total, people across Nevada have spent an additional **\$737 million** on gas since the beginning of the war. That has cost the average family in Nevada an additional **\$659** in gas costs.

Health Care Costs

- Because of Trump and Republicans’ refusal to extend the Affordable Care Act (ACA) tax cuts that help people afford their health insurance, monthly premiums for ACA plans **rose over 50 percent on average** in 2026 compared to last year. Meanwhile [deductibles](#) surged to record highs, increasing by more than \$1,000 on average.
