

State-by-State Data – 13.7 Million People Would Lose Health Insurance From Medicaid, ACA Cuts

According to the nonpartisan Congressional Budget Office (CBO)’s initial [analysis](#) about legislation released on Sunday evening by House Republicans, cuts to Medicaid and the Affordable Care Act (ACA) would result in roughly 13.7 million people losing their health insurance by 2034. Using CBO’s analysis and other research, the Joint Economic Committee – Minority calculated initial estimates of the number of people who would lose health insurance in each state.

Source: The state-by-state numbers were created by combining estimates from the nonpartisan Congressional Budget Office on the national total number of people who would lose insurance by 2034 with a range of state-level data on the number of people enrolled in Affordable Care Act plans, the total number of Medicaid enrollees in each state, and early analyses of how some Medicaid cuts in the bill would impact each state. The JEC – Minority may issue updated estimates based on changes to the bill or updated analyses of its impacts.
