

State-by-State Inflation Data: Families Spending \$700 More Due to Inflation Under Trump

New calculations from the Joint Economic Committee – Minority estimate how much more an average family in every state has to spend to afford the same items each month. This analysis was completed using the most recent Consumer Price Index data on prices in different parts of the country and uses the same methods that the Joint Economic Committee – Republicans used under the last administration to estimate state-level costs.

So far in 2025, the average family has **paid more than \$700 in higher costs because of the inflation that has occurred** since President Trump took office in January. Families are now paying higher prices despite Trump’s claims [last year](#) that “inflation will be in FULL RETREAT” by August 2025 and that he [would](#) “bring the cost of everything way down”. Instead, families in every state are paying more this year amid the President’s reckless tariffs and broken promises to lower prices.

State	How Much More People Have Paid Because of Inflation Under Trump (February – September 2025)
United States	\$706
Alabama	\$619
Alaska	\$1,107
Arizona	\$944
Arkansas	\$259
California	\$1,112
Colorado	\$1,062
Connecticut	\$673
Delaware	\$567
District of Columbia	\$774
Florida	\$585
Georgia	\$514
Hawaii	\$1,075
Idaho	\$864
Illinois	\$766
Indiana	\$668
Iowa	\$583
Kansas	\$631
Kentucky	\$614
Louisiana	\$291

Maine	\$543
Maryland	\$578
Massachusetts	\$709
Michigan	\$691
Minnesota	\$719
Mississippi	\$577
Missouri	\$638
Montana	\$894
Nebraska	\$652
Nevada	\$941
New Hampshire	\$670
New Jersey	\$871
New Mexico	\$815
New York	\$856
North Carolina	\$486
North Dakota	\$657
Ohio	\$659
Oklahoma	\$269
Oregon	\$845
Pennsylvania	\$733
Rhode Island	\$579
South Carolina	\$472
South Dakota	\$656
Tennessee	\$649
Texas	\$339
Utah	\$1,030
Vermont	\$572
Virginia	\$553
Washington	\$948
West Virginia	\$425
Wisconsin	\$671
Wyoming	\$920

Source: Monthly data from the Bureau of Labor Statistics on the Consumer Price Index both nationally and in each Census Division, state-level data from the Joint Economic Committee – Republicans on average household consumption in each state.

Note: Total amount spent because of inflation is calculated as the cumulative increase in monthly costs compared to January 2025 from February 2025 through the most recent month with data (currently September 2025)
