The Federal Minimum Wage

July 2016 marks seven years since the federal minimum wage was last increased. During that time, its real (inflation-adjusted) value has fallen by 9 percent – a loss of $1,580 for a full-time, year-round worker. This continues the decades-long decline in its purchasing power; since 1968, the minimum wage has lost fully one-third of its value.

Legislation to raise the federal minimum wage has been stalled. However, minimum wage passed by states and cities have provided more evidence of the benefits of raising the pay of low-wage workers. An expanding body of research suggests that a higher minimum wage increases the pay of low-wage workers and reduces poverty, without significant job losses. Evidence also shows that businesses benefit from lower turnover costs, increased worker productivity and reduced absenteeism.

Value of the Federal Minimum Wage

Current federal minimum wage: $7.25/hour

Last time the federal minimum wage was increased: 2009

Annual earnings of a full-time minimum wage worker in 2015: $15,080

Official poverty threshold in 2015 for a single-parent family with two children: $19,096

Official poverty threshold in 2015 for a two-parent family with two children: $24,036

Annual earnings of a full-time minimum wage worker in 1968 in 2015 dollars: $22,667

What the minimum wage would need to be today to have the same purchasing power as in 1968: $10.90

Minimum wage as a percentage of the average hourly earnings of private-sector workers in 1968: 52%

Minimum wage as a percentage of the average hourly earnings of private-sector workers today: 34%

Characteristics of Minimum Wage Workers

Number of hourly workers who were paid the federal minimum wage or less in 2015: 2.6 million

Percentage of minimum wage workers who were between the ages of 16 and 19: 19%

Percentage of minimum wage workers who were 25 years or older: 55%

Percentage of minimum wage workers who were 35 years or older: 32%
Percentage of minimum wage workers who were 55 years or older\textsuperscript{11}: 9%

Number of full-time workers who earned the federal minimum wage or less in 2015\textsuperscript{12}: 1.1 million

Share of workers earning the federal minimum wage or less in 2015 who worked full time\textsuperscript{13}: 42%

Percentage of hourly workers in 2015 who were female\textsuperscript{14}: 50.5%

Percentage of hourly workers making the minimum wage or less in 2015 who were female\textsuperscript{15}: 62.6%

Percentage of hourly workers making the minimum wage or less in 2015 who were black or African American\textsuperscript{16}: 18.8%

Percentage of hourly workers making the minimum wage or less in 2015 who were Hispanic or Latino\textsuperscript{17}: 17.9%

### Raising the Federal Minimum Wage

Number of states plus DC with a minimum wage higher than the federal minimum wage\textsuperscript{18}: 30

Highest future state minimum wage passed in to law\textsuperscript{19}: $15.00/hour

Proposed federal minimum wage in 2020 in the \textit{Raise the Wage Act}\textsuperscript{20}: $12.00/hour

Estimated number of workers who would benefit from increasing the federal minimum wage to $12.00/hour in 2020\textsuperscript{21}: 35.0 million

Number of working parents who would benefit from increasing the federal minimum wage to $12.00/hour\textsuperscript{22}: 9.7 million

Average share of family income earned by parents who would benefit from a $12.00/hour minimum wage\textsuperscript{23}: 63.1%

Share of families with annual income less than $20,000 who would benefit from a $12.00/hour minimum wage\textsuperscript{24}: 54.8%

### Federal Tipped Minimum Wage

Current federal minimum wage for workers who receive tips\textsuperscript{25}: $2.13/hour

Last time the federal tipped minimum wage was increased\textsuperscript{26}: 1991

Tipped minimum wage as a percentage of the full minimum wage in 1991\textsuperscript{27}: 50%

Tipped minimum wage as a percentage of the full minimum wage in 2015: 29%

Number of states where tipped workers must be paid the full state minimum wage before tips\textsuperscript{28}: 8

Change in employment in the accommodation and food services industry over the past year in those states\textsuperscript{29}: +3.2%

Number of states where tipped workers are paid $2.13/hour before tips\textsuperscript{30}: 18

Change in employment in the accommodation and food services industry over the past year in those states\textsuperscript{31}: +2.5%
