Notes: "-" indicates number rounds to 0 when rounded to the nearest thousand. Data are for civilians 18 years and over. State-by-state data for post-9/11 veterans are based on unpublished data from the Current Population Survey. These estimates are reported without margins of error, which may be large for post-9/11 veterans' data due to the small population of these veterans in many states. Caution should be used in comparing post-9/11 veterans' unemployment rates across states and over time.
